Phora & Mikla

Rejuvenating Creams

Time and toxins take it away, but you can bring it back – real radiance, plus the softness and elasticity of youthful skin. Phora and Mikla Rejuvenating Creams uses arctic cloudberry plus hydrolyzed collagen to deliver real beauty. Phora's and Mikla's unique prism-like composition refracts light to hide wrinkles and shadows while also hydrating skin all day. Our exclusive hydrolyzed collagen permeates deep into skin, stimulating natural collagen synthesis. Fine lines fade and skin tones in just 4-8

Facial Cleansers

Phora and Mikla Facial Cleansers utilizes a mild, non-foaming gel formulation with natural cleansing ingredients to brighten, refresh and soften skin. Natural jojoba beads provide mild exfoliation and effectively remove pore-clogging impurities. After Exfoliation, Phora and Mikla Facial Cleansers nourishes skin with arctic cloudberry, which has long been celebrated in Scandinavia for its beautifying effect on the skin. Vitamins A, B, C, E, and omega acids leave skin soft, supple, and perfectly prepped to maximize the results of its companion, Phora and Mikla Rejuvenating Creams.
